Continuation of Attachment(s) 3. Information Disclosure Statements (PTO/SB/08), Paper No./Mail Date: 2/3/04, 3/10/04, 11/23/05.

DETAILED ACTION

1. This office action is responsive to the following communications: the Application filed on February 3, 2004.
2. Claims 1-29 are pending in the present application. Claims 1, 16, 17, are independent claims.

Information Disclosure Statement

3. The information disclosure statements (IDS) submitted on February 3, 2004, March 10, 2004, and November 23, 2005, are in compliance with the provisions of 37 CFR 1.97 and have been considered by the examiner.

Allowable Subject Matter

4. Claims 1-29 are allowed.
5. The following is an examiner's statement of reasons for allowance: regarding independent claims 1, 17, the prior art fails to teach the cell structure of a gate terminal, two channel terminals with a channel region in between the channel terminals, a charge trapping structure, a tunneling dielectric, and a blocking dielectric, in which program and erase cycling are limited, such as being adapted for one-time programming, and the cell is programmed by E-field assisted tunneling rather than by direct tunneling. Independent claims 1, 16, 17, are therefore deemed allowable over the prior art. Claims 2-15, 18-29, are dependent on the allowable independent claims and are therefore also deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
